CONTRACTOR AND BUILDER

CHURCHES AND HEAVY STRUCTURES  
OF ALL KINDS A SPECIALTY.

STURGEON, L. AND CONSULTING ENGINEER  
BURLINGTON, VERMONT

## ABOUT THE STATE.

Items of Interest Gleaned From Our  
Exchanges.

Oscar Lavigne, of St. Johnsbury, a  
moulder in a foundry, filed a petition in  
bankruptcy yesterday. He has liabilities  
of \$335.58 and no assets.

W. D. Davis' house at Colbyville (in  
Waterbury) was badly flooded by water  
one day last week, caused by a frozen  
water pipe. The house is not occupied  
this winter and when the accident was  
discovered many of the rooms in the  
house were carpeted with several inches  
of ice.

### Manual Training a Success.

Miss Olive M. Strobell and Miss Rose  
C. Carrigan, special teachers in manual  
training in the Rutland public schools,  
have made their report on the first  
term's work, the course having been  
made a feature in the public schools  
during the fall term as an experiment  
after several years of agitation. Both  
teachers report thorough satisfaction in  
the progress made and recommend that  
the school authorities take steps next  
year to carry on the work on a larger  
scale.

### Has Valuable Old Paper.

Frank Maney of Rutland has what  
seems to be an original copy of the  
Utter County Gazette published Janu-  
ary 4, 1800, and containing an article  
on the death of George Washington. As  
it is well known that the Gazette of  
Philadelphia in 1870 thousands of fan-  
tasy copies of this issue were printed  
as souvenirs but Mr. Maney states that  
his mother had the paper in her pos-  
session 50 years and that his grand-  
father was a subscriber to the Gazette  
which does away with question as to  
the genuineness of the paper.

### Powerless From Fright.

The lives of several people on Mer-  
chant's row in Rutland were endan-  
gered Monday afternoon by the falling of  
an iron girder weighing over three  
tons, from the roof of one of the new  
buildings to the street, 50 feet below.  
A brace on a derrick broke just as the  
girder was hoisted to the roof and the  
heavy mass crashed through several stag-  
ings before striking the pavement. The  
falling of the girder caused the utter  
workman who was guarding the girder's  
course, was so overcome with fright that  
he was powerless to save himself and  
the heavy iron missed him by about  
four feet.

### Will Locate in Rutland.

Robert McFarland, formerly of  
Schneetady, N. Y., and owner of some  
of the most famous dogs in the world,  
is to make Rutland his home. He has  
leased a small farm on the outskirts of  
the city and will have every facility for  
breeding high class dogs. Mr. McFar-  
land's dog, Scipio, is an international  
winner. Before being captured in Dub-  
lin, Cork, Belfast, Tralee and Nenagh, Ire-  
land and also a special for the best dog  
in the Province of Munster. In America  
he has won 12 months seven cham-  
pionships, three reserve championships  
and 34 prizes.

Mr. McFarland has just been pre-  
sented with a gold medal by the Col-  
lege club of America in commemoration of  
the win of his rough female col-  
lusion Ceresse at the Newport, R. I.,  
Kennel club show in 1905.

### A Remarkable Circle.

Within a radius of two and one-half  
miles of each in East Montpelier live  
six elderly people whose combined ages  
total 331 years, an average of 55 years  
each. Hiram Templeton will be 88  
next June. He retains his mental fac-  
ulties and his eyesight and hearing are  
good. Mrs. M. R. Dodge will be 88 in  
March. Although partially deaf and  
with failing eyesight, yet she is able  
to be about the house. She retains her  
memory to a remarkable degree. She  
takes an active interest in the doings  
of the present time. Mrs. A. D. Arms  
will be 89 next September. Although  
blind she is cheerful and takes a keen  
interest in life. It is a real pleasure  
to talk with her. She has been in poor  
health all winter. Mrs. Rosella Tem-  
pleton was 91 last December. Until  
this winter she has been able to have  
charge of the cooking in her household.  
She has been ill but is now recovering.  
Mrs. Zippora Gould will be 94 next  
September. She has a fine memory but  
her mind dwells in the past than in the  
present. She has been a great sufferer  
from rheumatism and is now obliged to  
use crutches. "Aunt" Mercy  
Church was 94 last November. Four  
years ago her hip gave out and since  
that time she has kept her bed. Two  
of these elderly people, Mrs. Gould and  
Mrs. Dodge, are granddaughters of  
Stephen Derrick, a soldier in the Revolu-  
tionary War.

### Million-Dollar Diamond in a Mail Bag.

The American Magazine for February  
contains an account of the world's  
greatest diamond—a stone worth mil-  
lions of dollars recently found in South  
Africa. In connection with the descrip-  
tion of the finding of the gem, the fol-  
lowing interesting facts about trans-  
porting it are brought out:  
"This record stone was not, as might  
be supposed, sent to Europe in a ship  
of its own. So prosaic is the civilized  
commerce of today, that this vast treas-  
ure was merely sealed up in a tin box  
registered as a postal packet and sent  
through the mails as though it were a  
worthless geological specimen! It was  
received at the London office of the  
Premier Diamond Mining company,  
Ltd., and measures were taken at once  
to insure it for about half its approxi-  
mate value—say, \$2,500,000."

### "Not Yet."

Two of Germantown's well-known  
business men who have been traveling  
in the South recently arrived in one  
of the hill counties of Kentucky in  
search of pitch pine. They had been  
driving for two hours without encoun-  
tering a human being, when they came  
in sight of a cabin in a clearing. It was  
very still. The horse lay where they had  
fallen, the thin blackback mule grazed  
round and round in a great circle, and  
one lean, lank man, whose garments  
were the color of the clayback mule,  
leaned against a tree and let time roll  
by. "Wonder if he can speak?" said  
one traveler to the other. "Try him,"  
said the companion. "How do you do?"  
said the Northerner, "Howdy?" quick-  
ly remarked the Southern. "Pleasant  
country," the Northerner went on.  
"For them that likes it," was the  
answer. "Lived here all your life?"  
was next asked. The Southerner spat  
pensively in the dust. "Not yet," he said.  
—Philadelphia Record.

## CHURCH AND CLERGY.

During the sixty-six years of the  
ministerial life of the late Rev. Solo-  
mon Lindsey, central Ohio conference,  
he is credited with having preached  
6,741 sermons.

An appeal was made by the Rev. J.  
Ross Stevenson, D. D., of the Fifth  
Avenue Presbyterian church, New  
York city, at a recent Sunday morning  
service for \$12,000 to build a church  
at San Juan, Porto Rico. The request  
brought \$18,000, of which \$12,000 was  
given by one individual.

In honor of the Rev. Dr. Edward  
Everett Hale, whose eighty-fifth birth-  
anniversary will fall on April 3, a  
movement has been started in Boston  
having as its object the establishment  
of a permanent fund which shall place  
the Lend a Hand society, founded by  
Dr. Hale, on a sound basis.

The Rev. Dr. Charles M. Sheldon, au-  
thor of "In His Steps," has obtained  
six months' leave of absence from the  
Central Congregational church, Tope-  
ka, Kan. A portion of this time is to  
be spent in England under the auspices  
of the British Temperance union. He  
will also visit Australia and New Zea-  
land.

## THINGS THEATRICAL.

Jack London, the author, has copy-  
righted a play called "Scorn of Wo-  
man."

The proposition to star Viola Allen  
and H. B. Irving jointly has been given  
up.

Henry E. Dixey has a Shakespearean  
burlesque which he will try next sum-  
mer in Chicago.

Louis N. Parker has written a Bil-  
lical drama which is to have a hearing  
in New York next fall.

Among the plays selected for Wilton  
Luckey's repertory are "Jack Case,"  
"A New Way to Pay Old Debts" and  
"The Outlaw."

This will be Mr. Willard's last en-  
gagement in America for some years,  
as he returns to England in April for  
a lengthy stay.

The gowns which are worn by Miss  
Grace George in the production of  
"Clothes" are said to be marvels of  
the dressmaker's art.

Louis Mann and Clara Lipman, it is  
now reported, are to make a second  
appearance in London in "Police," a  
recent Parisian success.

## COLLEGE AND SCHOOL.

The first public school in New York  
city was established in 1652 at Peter  
Stuyvesant's suggestion.

The city of Dublin municipal tech-  
nical schools embrace in their curricu-  
lum classes in plumbing, metal plate  
work, enameling of metal and art iron  
work.

Andrew Carnegie has given \$40,000  
to the students of Yale university to  
build a new swimming pool as an an-  
nex to the gymnasium. This is Mr.  
Carnegie's first direct gift to Yale.

The first six colleges in the United  
States were Harvard, William and  
Mary, Yale, the University of Pennsy-  
lvania, Princeton and Columbia, found-  
ed in that order. All are now universi-  
ties except the College of William and  
Mary, Pennsylvania taking that rank  
in 1779. Yale in 1887, Princeton in 1890,  
Harvard in 1900 and Columbia in the  
same year.

### Hunting for Trouble.

"I've lived in California 30 years and  
am still hunting for trouble in the way  
of burns, sores, wounds, boils, cuts,  
sprains, or a case of piles that Bucklen's  
Anal Ointment won't quickly cure,"  
writes Charles Walters of Allegheny,  
Sicilia county. No use hunting, Mr. Wal-  
ters; it cures every case. Guaranteed at  
Red Cross pharmacy. 25c.

## CURTIS & SEDERQUIST

## CUNARD LINE

Post-Queenstown-Liverpool

Fast Twin Screw Mail and Passenger Steamers.

14,000 tons; 800 feet long. Remarkable for  
steadiness. Rooms upper decks amidships;  
perfect ventilation.

SAXONIA, Feb. 19, March 19, April 16, May 14.

VERONA, Mar. 5, Apr. 5, April 30, May 26.

Plans, sailings, etc., see Cunard & Co., Ltd.,  
10 State St., Boston, Mass., Chas. P. Sumner,  
Agent, or to local agent, S. S. Ballard's  
Steamship Agency, Miller Block, Barre or New  
Landon Block, Montpelier.

## Experiments In Corn Culture.

Experiments in the different phases  
of corn culture carried on by nearly  
all the stations have shown the advan-  
tages of frequent and shallow cultiva-  
tion and have given rise to the more  
general adoption of this method by  
farmers, who are finding that their re-  
sults confirm the station recommendations.

## Color of the Eggshell.

The color of the eggshell has an ef-  
fect upon the market value, the brown  
shelled eggs bringing a higher price in  
some markets and the white shelled in  
others. In England the preference is  
decidedly in favor of the tinted eggs.

## OYSTERS SERVED IN ALL STYLES

All Kinds of Fresh Fruit  
and Confectionery.

## Vermont Fruit Store,

A. GIACHINO, Prop.

155 N. Main Street, Barre, Vt.

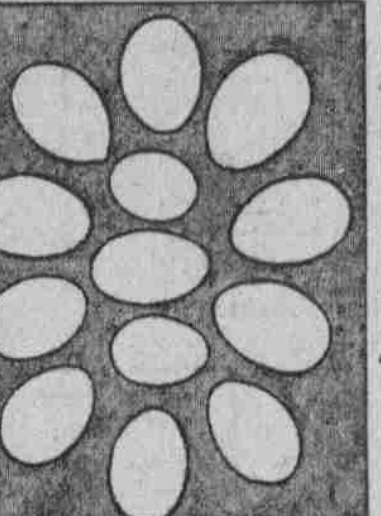

## Home Bakery.

We will reopen our Bakery on Tuesday, Feb-  
ruary 12, at the same place, 22 Church street.  
We will be pleased to see all our old customers and  
many new ones. Mr. and Mrs. O'Brien. 29112

## EGGS FOR HATCHING.

Sizes and Shapes to Select and Those  
to Exclude.

Professor C. K. Graham of the Storrs  
experiment station, Connecticut, says  
that the shippers may be expected to  
give fair sized smooth eggs for hatch-  
ing. Rough, thin shelled, dirty and mottled  
eggs should be excluded, and, while it  
is possible that small eggs may be as  
fertile and produce as many chicks as

### 1-BEST EGGS FOR HATCHING.

larger eggs, still it is probable that  
pullets hatched from such will have a  
tendency to lay small eggs.

It is advisable to buy eggs under  
five days old at the time of shipping.  
Each egg should be carefully dated  
when taken from the nest to guard  
against error on this point. While  
good hatches have been secured from  
eggs three weeks old, when placed in  
the incubator, as a rule, a good hatch  
cannot be expected to come out after  
they are ten days old. Too much care  
cannot be taken in packing. Since  
boxes sent by express are likely to be  
thrown and baskets carried, the latter  
should be preferred. An ordinary bas-  
ket, with plenty of excelsior in the bot-  
tom and sides, well cushioned, makes  
an excellent receptacle. In this the  
eggs, each carefully wrapped, should  
be packed and over them plenty of  
padding placed.

Cheesecloth or cotton tacked over the  
top forms a satisfactory cover. Such

### 2-EGGS TO BE EXCLUDED.

a package, conspicuously labeled "Eggs  
For Hatching," can be shipped any dis-  
tance and will reach its destination in  
good condition. Upon receipt of the  
package the eggs should not be re-  
moved until the hen or the incubator  
is ready to receive them. But the bas-  
ket should be turned over daily.

### 3-SHEEP FOR CLEANING LAND.

The sheep breeder or feeder know-  
ing that there is good money in the  
kind of live stock does not have much  
patience with the man who wants to  
keep his flock on briars, bushes and  
weeds. He knows that sheep repay  
the use of the best feed the farm af-  
fords. Granting all that, there is an  
immense number of farmers who do  
not want to go into the business of  
producing mutton and wool and should  
not do so, but on many of their farms  
there is a place for some sheep to take  
the place of farm labor for cleaning  
up land, says National Stockman and  
Farmer. There are tidy farmers who  
depend upon a flock of home bred  
sheep or a bunch of western yearlings  
to clean out the weeds in stubble fields  
and fence rows and in old meadows.  
They earn their way till feeding time  
in the late fall. The scarcity of farm  
help has driven people to the use of  
all labor saving devices, and among  
them is a flock of sheep for fighting  
weeds and other undesirable growth.

### 4-THE NEWER FEEDS.

Molasses feeds are relatively new in  
some of the eastern feed markets.  
They are, broadly speaking, admix-  
tures of waste molasses and sugars  
with sundry grain products and offals  
or with beet pulp. Four out of seven  
brands examined in Vermont by the  
experiment station were found not  
equal to the promise made for them.

### 5-FOR SALE.

Right double tenement houses 14 tenements.  
Eight cottages houses.  
Eighty-five building lots.  
All of the above is desirable property  
and well situated in the heart of the City  
of Barre. For further information inquire of  
John T. O'Brien, H. A. Phelps.

### 6-FOR SALE.

Two sets of two-story dwellings, der-  
rick, moving machine, horse, trap, hay,  
two-horse wagon, plow and scraper. For full  
particulars inquire of C. W. Perry, Gordon  
Block, or Mrs. James Lafayette, corner  
Quarry and South Main streets.

### 7-FOR SALE.

100 tons of dry, two-foot wood,  
all right for furnace or stoves. Price two  
cents per cord when it is cut. One mile  
from Philadelphia depot. Inquire of J. A. Fess at  
postoffice.

### 8-FOR SALE.

Quantity of first quality turn-  
ing and cabbages. Telephone F. E. Fletcher, Barre,  
Vt.

### 9-FOR SALE.

Young new hatch cock, also  
fine set of potatoes, 45 cents a bushel in five  
bushel lots. Inquire of Clarence LePage,  
Barre, Vt.

### 10-FOR SALE.

Restaurant. I will sell as a  
bargain, if sold at once, the Northern cafe and  
am obliged to sell on account of other business  
needing my attention. Don't lose a good bar-  
gain by waiting. For further particulars call  
on or address F. T. Carr, Northfield, Vt.

### 11-LAYING HENS FOR SALE.

Rhode Island Reds at \$1.00 each. Inquire of  
E. M. Lyon.

### 12-FOR SALE.

A couple of fine building lots in  
heart of city. Will sell a bargain, price or  
exchange for a house. Inquire of Harry A.  
Segel, at S. J. Segel & Co. store on Depot  
Square.

### 13-FOR SALE OR TO RENT.

Cottage at 40  
Brook street, with barn. Inquire S. J. Segel,  
Main street.

### 14-FOR SALE.

Nice, homey place, both coars and  
fine. Orders may be left at Sowden & Lyon's  
store with me at 21 Highland Avenue.  
Carleton.

### 15-FOR SALE.

Incubator, 300 egg capacity, been used one  
season. Price low.

### 16-FOR SALE.

W. A. ALLEN, Summerside, Maine.  
Telephone 114-3.

### 17-FOR SALE AT CASHIER FARM.

Hay—Delivered promptly in bulk.  
Farm—100-acre farm. First-class buildings.  
Will cost 100,000 of cash.  
Laid—100-acre in lots of 2 or 10 acres, to suit  
customer.

Pasture—100-acre, pasture land without  
buildings (old Main farm).  
Apply to George Christie, East street, or Perry  
Real Estate Agency.

## NATURE SPARES

### The Stricken Rose From Grief.

What a fortunate provision of nature  
it is, that deprives the rose of mental  
suffering; for how poignant would be its  
grief to discover, in the height of its  
blooming glory, that a canker fed at its  
heart, and that its beauty and fragrance  
were doomed forever. Nature always  
squares the suffering; she is a veritable  
store-house of pleasing rewards, for  
those who seek her aid. In the years  
gone by falling hair and grayness have  
cast a gloom over the lives of thousand-  
s of young women, but thanks to the in-  
vestigations of scientists the true cause  
of hair destruction is now known to be  
a germ or parasite that burrows into  
the hair follicles. Newbro's Herpicide  
absolutely destroys this germ, thus  
preventing the hair to grow as na-  
ture intended. Sold by leading drug-  
gists. Send 10c. in stamps for sample  
to The Herpicide Co., Detroit, Mich.  
Two sizes—50 cents and \$1.00.

### E. A. Drown, Special Agent.

## FOUR LINES FOR 25 CENTS
